

To Whom It May Concern

## Environmental Statement

A. Eberle GmbH & Co. KG, manufacturer of equipment for automation and control of substations in electricity networks for power transmission and distribution and electrical power plants, recognizes its responsibility to ensure that the business activities do the least possible damage to the environment.

The management of the company is committed to a policy of environmental management throughout the company activities, similar to the requirement of ISO 14001, ensuring that services are provided in such a way as to minimize the environmental effects. Furthermore the company is committed to a process of continual improvement of environmental performance.

The company ensures that these objectives are achieved by:

- Compliance with all relevant environmental legislative and regulations.
- Re-use or recycling of waste materials whenever possible, prior to disposal.
- Minimize the use of resources (materials, fuel and energy) thereby reducing wastage.
- Minimize all emissions and discharges (noise, gaseous, solid and liquid) ensuring compliance with all regulatory controls.
- Consideration of environmental effects and commitment to pollution prevention in all business decisions, including the purchase of materials or equipment and the adoption of new technology/processes.
- Encouraging all third parties involved with our business to adopt a policy of environmental management.
- Provide adequate resources for the achievement of the policy objectives.

Within this overall objective, we have both a moral and legal obligation to ensure that we work safely and to ensure that others work safely. To this end, A. Eberle GmbH & Co. KG maintains a health and safety policy and associated arrangements. All members of the company are required to work within the framework of this policy.

In addition the company operates a quality management system, certificated after ISO 9001:2015.

The nature of our activities places particular emphasis and demands on the competence and experience of the staff employed. High levels of responsibility and reliability are associated with all aspects of our work and a commitment to continued professional development and training exists to ensure that entire staff is suitably competent and qualified to meet these requirements.

All new and existing personnel are made aware of the Environmental Policy during ongoing training sessions and during Company Introduction.

This environmental policy is approved by the undersigned and is the authoritative document relating to environmental management within the company.
