**Product discontinuation: DIN rail housing EOR-3D (characteristic B02) until 30.06.2020**

Dear ladies and gentlemen,

Product changes, but also product discontinuations, mainly serve to continuously improve products or stabilize the product group with regard to hardware, firmware and related software.

**1) Concerning Product**

The EOR-3D with characteristic B02 (article numbers: 119.8500 to 119.8584) is currently planned for product discontinuation.

**2) Reason for discontinuation**

The top-hat rail version of the EOR-3D has reached the end of its technical product life cycle and will therefore be removed from the product range at the above-mentioned time.

**3) Available function-identical replacement devices**

- EOR-3D with characteristic B01 with DIN rail adapter
- EOR-3D with characteristic B03 compact with DIN rail adapter
- If applicable EOR-1D
- If applicable EOR D

**4) Existing devices in the field**

- The agreed warranty period will be fulfilled in any case.
  - The product support for devices in the field will remain as usual.
  - Repairs of the mentioned devices are carried out until 30.06.2025.
- After this time, you would receive an offer for a replacement device with identical function (see point 3).

**5) Transitional period (Last Order)**

The transitional period begins immediately (29.01.2020).

The product can still be ordered up to and including 30.06.2020 (date of receipt of order).

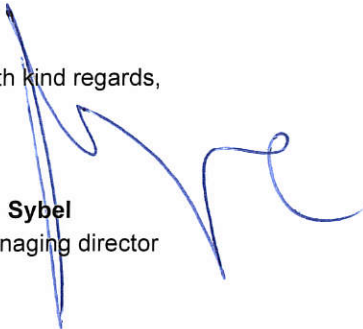

ATTENTION: Orders placed during the transition period cannot be cancelled. We also reserve the right to limit the order quantity based on our manufacturing capacity and material availability.

- 1) Please forward this product information to your employees, colleagues and, if applicable, to your costumers.
- 2) Please excuse the inconvenience that may be associated with the discontinuation. We will do our best to make this action as smooth as possible and without affecting delivery times.

If you have any questions, please contact your first contact person directly.

With kind regards,

**Till Sybel**  
Managing director

**Michael Heblík**  
Qualität Manager
